Education

BS: Environmental Geography, Michigan State University, East Lansing, MI., 1986
MS: Physical Geography, Watershed Management, University of Tennessee, Knoxville, TN, 1991.

Career

Geothermal Laboratory Coordinator and Researcher: Huffington Department of Earth Sciences, Southern Methodist University, Dallas, Texas, 1995-present.

Maria Richards is a researcher and fundraiser for the Geothermal Lab, a self-supporting organization, as both a Principal Investigator on grants/contracts and through solicitation of sponsorship from companies. She works directly with faculty and students overseeing related geothermal research from initial application, management of budget, to final report with primary funding from companies (e.g., Google.org, Anadarko Petroleum), State Agencies (e.g., TXSECO), and Federal Agencies (e.g., Department of Energy; National Laboratories). She develops outreach programs on geothermal energy and the environment, coordinates research software, and facilitates learning activities between SMU and community programs. P
